

## Who is Krishna?

Talking about himself in the Bhagavad Gita, chapter 7, verse 8 he says:

"...I am the sound "OM" of the Vedic mantras".

Whoever knows what this "strange ancient vibration" OM is all about has understood what kind of being Krishna really is and what its intentions are, as it has been revealed in this sentence!

### ***Krishna reveals his true intentions!***

How else can we explain it when Krishna says that he is the vibration OM [established on Earth about 6 million years ago], other than as the counter vibration from the counter creation of Sadhana!!! Why does he want to bind people to this OM sound which saps people's energy, which the "Lord of the Earth" then uses for his evil plans. A sound which enslaves people and is strongly connected to the beings of the mirror world. With this sentence, Krishna has revealed what he truly is and what he is up to.

#### TRANSLATION:

O my son Kunt.s, [Arjuna], I am the taste of water, the light of the sun and the moon and the sound on in the Vedic mantras; I am the sound in the ether and the power in people. Chapter 17, Verse 23: om-tat-sad

TRANSLATION: If after being absorbed in this yoga practice and uttering the holy sound om, the most holy combination of letters, one thinks of the highest incarnation of God when leaving the body, one is sure to reach the spiritual planets.

Once we have completely understood what OM is all about, no further discussion is needed about who Krishna is and what principles of the religion he - as he put it - wanted to reintroduce, re-emerging from time to time over the ages. With this "ingenious" move he managed to bind humanity tightly to the counter-creation, which he designed as the fallen Sadhana, who later named herself Lucifer and presented herself in male form. Many millions of people today have fallen into this powerful snare. **Especially people who have made a serious search for God have been directed onto the wrong path and have been captured by the mistress of the mirror world!!!**

This makes it ever more clear that Sadhana is behind Krishna. And it also becomes clear how strong this energy field is, this thought elemental with which Krishna made himself the highest incarnation of God. I have experienced this energy field and I can now say that its power is not to be underestimated and that it can lead a person well and truly astray, just as Sri Aurobindo was led astray by it! Sri Aurobindo did not realise what Krishna was all about. He was very strongly influenced by this energy field. So now we have to realise that everything that he wrote and did was quite strongly influenced by the masters of the mirror world.

In the past, the vision of so many people was clouded through this thought elemental of Sadhana as Krishna, to the point where their ability to see the truth was impaired!!! The best example of this is probably Aurobindo, who truly wanted to show people the way to God. And now everything he wrote has to be re-examined! We must re-examine it in depth and in doing so always be aware that he did not see who Krishna truly is!

But even Mahatma Gandhi had to learn to free himself from Krishna and the Bhagavad Gita. Even though he lived his life in an exemplary way according to the sermon on the mount, he was not able to see the powerful deception of Krishna and the Bhagavad Gita during his lifetime.

Now we must actively work towards freeing ourselves from the influence of this thought elemental of Krishna.
