

The Theme of redemption in the blood

The New Testament in your Bible is the truth a little closer. But even here there are many misleading dogmas that have been added. Above all, not everything is true, what Christ is alleged to have said. There are a lot of exaggerations and what Jesus really said, it is now interpreted differently. In any case, he wanted the UR-spirit, which means it is not God himself. That has your Christ will never be claimed.

Now celebrates the theology of Christians monstrosity. This is the so-called blood salvation of Christ. The Bible records say that one of the Messiah God intended and authorized the death had to die so that the humanity of the many sins was redeemed.

About the abundance of such foolishness, we are appalled Santin.

Firstly, the sequence of a human destiny never exactly evident, that death is already determined.

Secondly, God is for life and not against the same. The death of Jesus is a crime and it is an impertinence of theology, it added, that God condoned this crime, and indeed beyond it had wished. This insolence is unforgivable, because God is not a criminal, not even for love.

As in the case of Jesus Christ to a delegate from the divine authority, theologians relied on the supposed omnipotence of God. But it was a big mistake, because God brought the dying son of God not by Marter Cross. On the contrary, he let him die and the cruel mockery of all the accomplice. But this was a statement to be found. It is with a human foolishness: The Almighty God made Jesus die. so that the sins of mankind is redeemed. An innocent scapegoat for the whole of humanity, now each and every responsibility law is happening. I tell you with all my strength of urgency: "This is a dangerous mistake that you bitterly regret all must, if ye from your logic makes no Right Used!"

Mercy and forgiveness

There is no blood redemption. Christ pointed out, however, a way of salvation. A different path does not exist. Only through better thinking and better action, only through education can improve people's man's way to make a better life stages. A teacher, a teacher of God not with his death not only redeem man, even if that death is still so horrible. That is human garbage. Incidentally, this mass of humanity salvation of the earth actually assigned the great creator. He calls it, without him asking, generosity and love of the insane evil people. It will free humanity from all evils redeem, or the whole of humanity with impunity in the sky can be. For this purpose it is only of repentance before a priest need, whether real or repentance is only feigned.

The main thing that the person seeking forgiveness, the priest confesses his misdeeds. How moronic their points in this thinking! Power even from your use of logic! Such a God, in this frivolous way a human being, the big mistake, but would be an idiot ...
