From the inner,
mystical Stillesein
Miguel de Molinos (1627-1687)

There are three types of silence.

1. of words,
2. of desire,
3. of thought. The

1. is complete, the
2. is perfect and the
3. most perfect.

Through the silence of words acquire strength;
Through the silence of desire to obtain peace;
Through the silence of the thought to get to the internal collection.
By not speaking, and Not Want Not Think you can to preserve and perfect mystical silence where God speaks to the soul, communicates to her, and her in the abyss of his own depth of the most perfect and sublime wisdom reaches.

God appoints and leads the soul to this inner solitude and mystical Silence, when he says that he speaks to her alone in the most secret wishes and hidden chamber of the heart.

Thou shalt in this mystical silence incur when you have the sweet, inner and divine voice wants. In order to obtain this treasure, it is not sufficient to leave the world, not even their own wishes and all created things to abdicate, as long as you do not even want to own everything and thinking gives up.

Therefore rest in the mystical silence and open the gate so that you are God communicate to unite with you and you can self-transformation.
The perfection of the soul is not much talking or thinking about God, but in love with him right. This love is perfect Surrender and inner Silence, obtained, the doing is everything.

This confirms and sharpens us John the Evangelist; with the following words, a:

„My little children, let us not love with words or with tongue, but in Fact and truth.“ (1 Jn 3.18)

You`re now about to clarify that, perfect love, not only in Tun loving or gentle effusions is still less in the internal actions, asserts you what God told you to never-ending love for him and him feels more popular as yourself, it may bet hat you and your self-love while looking for more than the true god´ s love, because love in the works, not in Speach beautiful species. In order to meet a creature that is endowed with reason ist he hidden desire of your heart and willingness to recognize, you have to express with words. But god, who examines the heart, requires your commitment and your external insurance is not, nor is he, in the words of the Evangelist, with the love in words and with the tongue satisfied, but only those with a love that ist rue, and energetically. What use is it with great zeal and fervor to insure that you saw it on everything, tender and perfect, love, you can but if you added a small insult not deny, nor from love to him, your personality forget. Thsi is a manifest proof that your love with such a Tongue, not the fact.

Seek, with all devoted to be and you will thereby excluding him explain that you love him, the perfect, quiet, effective and true Love of gain. Peter assured the Lord very eager that he would be willing, his life for him to sacrifice. But on the question of a young maid, he denied him, with his zeal, it was too late. Maria Magdalena lost not a word and yet the Lord was touched by her eager perfect love, he said that she loved you a lot. It ist rue that in silent silence the highest virutes of faith, hope and love are exercised, without the it is necessary to affirm God, that you love him, believe in him and him hope. For the Lord knows you better than the real sentiments of the Heart. How good was that kind of pure love of the deep and large Mystics, the venerable Gregory Lopes, recognized and exercised ist whole life a perpetual prayer and a sustained contemplation of so pure and spiritual love of God was that he never feeling excitement and sensual sensations space existed.

After three yearsthrough consistently had inwardly prayed:“Thy will be done in time and eternity,“ with every breath these words repeatedly revealed to him the divine omnipotence of the inexhaustible treasure pure and constant faith and love of power, into silence and acquiescence, so that it could be said that during the 36 years that he was still alive, those pure power of love within him continuously possessed, without ever the least selfish desire or something sensual, ort he nature Arose to have been shown. – 0 and embodied Seraph divined Man. How well you underestood it, you in the inner, mystical silence sink and the outer of the inner man to differ !

Christ in me

Johannes Gossner (1773-1858)

Calm and quiet your innermost needs to be God in you are able to take with you him become one. As long as ownership or operation of any of the slightest opposition to God´ s work in you, it can not purely and louder in your work. And he ants to be but all in all his. But then it should come with you that you can say: I live, not I, but Christ in me.

This man is a spirit with God could be, he must be disruptet endeavor and practice in a complete and endeavor and practice in a complete and true reuunciation of what God and is not entirely true and in love to God, in fact, our Heart, argue, and in this intention all his powers, his whole soul, collect all of his sense.

But that's not enough that God should give his grace, must support, must lead and guide us in our affairs, it is only this salutary Refreshments available. It must first be in us, he needs to act, what our efforts can not, he must let us collect ourselves, we must lead, he put us in itself. It can not be two things at the same time Appendix – God and not God, spirit and flesh, the World and Heaven, exterior and Inner, the visible and invisible, and non-Christo Christo, I want to become a contact me, should I return from the other, I will be in a stay, I must remove myself from the other. Two Gentlemen you can not serve – Or it has only one your mouth, the other your heart. – Who has your heart, the has you, but now it is your seriousness, very God – all of Christ, then return once all the other backs, tear, tear your heart of everything going on and there is no stopping the one of you want to be. But do not think you are by yourself loose and God can give – ask him, that you take yourself, and let not serious with requests until he does. You ask after the next and the best preparation for his? To take the Answer: Learn inner stay, you get used to entering into your heart, because inside will you light up and glow, as you will hear the language of the Spirit, you will feel it stimulating, you will hear what you have your hard work and shall turn thy attention.

The spirit of God moves and drives without Ceasing to His, and a yes but do you want to be? But you remain in the Exterior, so you have everything the customer does not, because the outer man knows nothing of the particular. From the outside we can know God and his spirit is not perceive. Whoever therefore wants to come to God must believe that he is and in mind the obvious, because of his look meaning, how can know what is inside him, how can he God perceive and feel his spirit or replying, as he not at home, not with itself. Will you be a spiritual man or Christo belong (because the Spirit of Christ who has not, belongs not to him, Rom. 9), then walk in the Spirit, they turn a spirit, so to hear his gentle purr and contractions, then let him drive and govern.

What drives us now?

He lures, attracts and drives with him to renunciation, poverty of the mind, to Purity, simplicity and quiet silence. The nature in the service of sensuality is the World and the devil to seduce and tease diversity, distraction, restlessness, wild goings on outside. that you can clearly see why the Humanities Child you are, what your mind or what drives you to follow. Come here, you Blessed of the Lord, calls the Spirit of God, and you're a child of God and of the good spirit, so contemplates you, so it draws you into the land of peace. Come out, distract yourself, search Society, Entertainment, calls the spirit of Nature of the world and of Satan. And you're a natural world and child, so you follow this attract and faces the spirit of God in you the back. Where there is peace be?

The inner and dear person should therefore seek that the current perceive God in itself, so he must remain inner God space and prepare a place and give it to him in his work could perform. Because God's place is inside alone in us (Luke 17).

O Big and glorious Gospel ! Human children, as you are before God pardoned, how can you have God so close and learn ! And you do not want their can void the things that captivate you in appearance, and God does not leave sacrifice, but because he himself wants to give you inside. What tongue can the wrong-headedness of people pronounce? Who are our eyes water enough to entrust to our ruin?

How do you like about your poverty, your misery, your weakness complain – yes you're looking for itself is not the place to where the treasure is preparing for you? Your useless Actions, not because you are looking for, where to look for treasure. If you want the sun to accuse that it does not appear in your apartment, and you shut it the Entrance; open the windows, the shops, so it goes with all the glory of their light and heat. You complain that the Lord will give you not prefer you not, you feel his Not present! Make him the place in you, ready for him a place, open your Cardiac him go to the Lord is there, you will feel it and find. The action Augustins about himself is aware that he is God, in him, except for long is sought and therefore did not find, until he is in there. God is inside and you memorized; Go distant, and you're away. How can you so with it meet? Not forever, until you then contact you with all your soul, where he is, then you will immediately find him. Certainly, the Lord, his light, his grace, Peace be to you is closer than the sunlight, if you him your heart opens (Offb. 3.20). O souls, the light is not blocked out, or else converts it in the darkness, and the Darkness has no communion with the light.

Each Fair is a heaven of the Holy Trinity. Because this is the soul created by God that her spirit a throne of the Most High is the realm of Soul land the body seat her apartment. Therefore, there will be, their Beloved, let us stop and be happy to make visits to the eternal love, so we are all the best, which we so much need, when you find, because they every so often donates abundant gifts, which she visited her there. O their loved ones, but not irret except you in the Irrgarten.... the sense of the world and Nature around. Inside the realm of truth, love and glory - memorized deceit and deception – the last despair. No truth will you legally recognize learn if you were not inside when the source of truth legally recognize learn if you were not inside when the source of truth Key Holst. You will be with words of truth play, without knowing what you're saying.

The intrinsic reason of your soul you need to warm by the love of sighs thy God in humble submission to him open, you just under God in humble submission to him open, you just under God, not before, not backward – not around you, but only looks upwards and then the Divine Light you shine directly into electricity and is all-bless power unchecked pour into thee. Who among the rain is on the follows they are down. If you are under the sun is in the thrown is rays directly out. So God sends is beams on him just returned to the basic Heart. The sun moves on, it nothing is in between, from under her Earth is all impurities, moisture and vapors, dries, cleans and warms, so the vapors reared light met and bright, so bright are. That is the effect of the sun god in mind returned to it, it pulls the Spirit to himself, cleans, explains, and illuminates shines through him and makes him one with it slight. Who should this sublime sun does not like to suspend especially since they are close, we can have? Why do you flee, and they sit and tap rather in the cold darkness. How unhelpful and desolate is where the sun does not reach! How must it be a heart in which the divine sun not let light through in her within, but always in darkness transforms. O My dear children, examines the true Light, reverses a sit their rays, let your heart right from is heat and light force penetrate impure everything from you undress and get it to unravel and in the regions of light. Cold and your heart is impure, if you're not in this sun-s and just below it ask for their radiation specific. All wild animals are living in you, if you flee their light.

Many are used to that life go, what this secret close God is so alien as a village farmers of the king of the country and the guilty Agreement against him (or Hofsitte).

Thus, many who have some years the spiritual sham driven, good brave people and also have told his wanted, in their mere superficialities sufficeth found, while the real life of mind not at all know the details of dealing with God, the intimate association with him does not know or suspect still do not know want. They understand it is usually just as the German Farmers the Latin. They pray, sing with your mouth, and push everything mechanical, think, more than enough to have done. Tell them of the inner life and union with God, then they laugh about it than about entzhusiasm, or i fit pushest he bile, they supplied you as a dangerous man. It is for exteernal people to have little or no benefit and honor and fun is no, it´s too serious, otherwise they would probably also help. What a Riddles fort he future life! How far are they with their mindless experienced the laws of intimate, trusted friends of God, and after always left behind.

Do not muddle, although few are even undeer so-called pious and awakened. It is such a lot fo chaff and impure Stuff, including the Protestant doctrine of an external law making.

But the spirit of life, because life in christ Jesus (Romans, 8,2), not let into her heart, just the words of the ,Gospel in teh mouth, but God, Christ does not dwell in the heart can be, much less for stop him and in him remain. Many are called but few chosen. It is therefore one or none, of the light with you in the light looks, why do not you stay in the darkness, because more than they love the light. You turn to your God, looking fort he sun the sky, not in the cellar, and God in the Spirit, not in the flesh and iin the Visible. But be sunny with a few glances not happy, sit her very and legally, so that you completely pervaded by her will. You, however, it is serious about the intimate friendship and association with the Confederation close to God, standing on your hat and occurs your celebrations and to see (Hab.3), that there is nothing strange and unequal discover that the exterior is not creep into the sphere of light, whether they are images, thoughts or other internal and external manifolds. In other words, keep, quard your heart, your affairs, the sanctuary of the Lord, in thee well, that nothing in your heart depends on him as there is no thing, no fancy picture, no inclination, no Idol or your favorite subject in firmly set.

Purely from Christ and to all ! That your motto ist hat you in fact need to follow. Because you can be something in your heart nest next to the Lord, he will avenge it, (b ecause he can not do anything besides to tolerate), it will provide you with great drought and drought of the spirit chastise, thou wilt into apathy and cold against him in ruins. The prayer and each pious exercise will disgust you to be dealing with the pain a Savior and torture, you will lose all strenght and no longer know what you think begin. These are the fruits and consequences, when the heart next to Jesus something to hang.

But do you resist the (just as it is described), but then lose the courage not, even less patience. Consider whether the Lord those Condition Lamentation has come over you, so you more cautious and careful to make way fort he future that you will perceive your diligent.You must never despair, but it has always been daring. The Lord chastises those states with the Out time only to recklessness, because grace i soften easy, so attention is paid they are not so high as we should and will lose it again so easily. Light won easily dissolved. Often, it is punishment of pride, it ist he Lord Grace viewed as ist strength and selfascribed and vain has become in his thoughts. Now the

Lord takes them away, that one sees what on eis. Humble yourself; the humble God gives grace to the proud resist it.

Therefore strict these to renew the industriousness to return to your God. The more serious, strong, pure you do, the closer, sublime, intimate will once your bliss, eternal bliss in thy God, thou art ever mild, so as more decreased your eternal happiness. The Lord has sent you and each of us great healing and assigned us the opportunity where to achieve it as often as your only desire is serious, he has given us strength given us to him to collect (us to give Him) until we perfect healing and our salvation through and in him to win. Yes, all potential strength and grace to us through Christ, so ist he guilt Our only if we are not everything, we thought of God admitted to reach salvation. The whole Fullness of the Godhead is in Jesus we opened, we can, if we only want all the moments in this open fullness draft us in spirit every moment through deep faith and love us with God in Christ and unite us dear surrender him.

And the pure, true, complete response in tzis Go dis, we per-witted and my own search, the more we practice it, so weg et some all, a new grace, a new light, a new cleaner, a new inner Close to the Lord. How to be irresponsible if we, as we know, and this us the door to open, it can not do? How come we even our eternal salvation with feet away, the Savior of us so suggests. Children, it is nothing easier and more blessed than to be blessed. Damn it will be unfortunate and embarrassing and difficult – but on the way to salvation is growing with every Stepp of our Bliss. O, therefore, let us once entered on the path no longer reversed no longer silent, not lined, to move forward, let us without Ceasing us into the ocean of love throw, so we will be even louder and love Bliss will. He ist so close, so close that we could not have. So as you sink into, incessently – so you give him and let him stay in it – how is it you do so well. Can he not in the midst of suffering, humiliation and persecution ist he greatest happiness and joy to the hjeart lay?

What a wonderful Saviour did you? Are you looking for another? I thought, no, let her stay! We stay with him because he is happy with us. And who will it take us?

Revelation of a star accupant

George Riehle (1872-1962)

A resident of a distant sun says:

„Take it true, take it every moment of it, they just always keep in mind fusion with the love of your Jesus christ. We are already blessed, if we are approaching the planet, let alone their sacred ground enter, and more, the tholiest of what you experienced may hear.

Myriad worlds revolve in infinite space, and this pathetic planet, let alone their sacred ground enter, and more, the holiest of what you experienced may hear. Myriad worlds revolve in infinite space, and this pathetic planet has the merit of this immense human spirit then to have taken and the Residents of the earth, children, friends and brothers to raise. We will taught by the angels on your entity and expect that it is our some day does, if you some day His holy life, you found in your Chest and the children of God lead you to collect, where the fathe rof all what they ask from Him.

There is no earth word to describe the beauty of our world and the Perfection of our existence. In our life there is no contradiction, the the harmony of our world interfering. Everywhere peace. **One thing is us: our Life is surrounded by a border, we are just what we need to be her however, you are that, which you would like to be.**

The holy love of the eternal UR-Spirit that her father is called, if allows you, with the root of His holy, great life to become. Since we know that He by His Incarnation your brother has beco me an dhis life for you abandoned, it reveals to us the greatest and holliest of all Creation by His children.

You`re surrounded by a light at this moment, which is according to your Earth expressed as means and shine the light of ist luster examines the Middle of your heart to be there to concentrats, and then from your heart be assumed by all spaces of infinity, which then also our world will be touched also. There is no term for your sense of how far our world of your Earth revolves, and what I find in your Relationship with your life Jesus, what I see in and through the wide Far wear from the bottom of my feet now beards (Earth) to tell it to my brothers there: „The great spirit took me down to earth and has taken my Eye opened up in the living depths of His Friends.“

My compatriots in your midst, there is no comparison to the Soil of these imperfections. So you have reason to be happy and you too lock at the darkness that surrounds you and which can be expressed in order to be redeemed will.

Well you if you touched this life because you are steeped in higher Power. But if this lives fort he salvation of all people and nations your world, then come you in connction with the root of this holy life, which a single jet, i fit touches us, welcomes us and for us a Fullness of life includes that indeed the kingdom of light, which helps me as a creature, far behind.

I want you with thunder voice say: The days go on, forever sets the goal, and your heart is still on this earth, but once, the last Shock and the shell falls. It may fall, because they will then no longer needed.

Think at a fruit fo the earth. Suppose that a nut. It develops in the hull of th eir shell. She needs this case to their maturity, because one would their Shell take before maturity, which would then be from the fruit? If they but is ripe, it breaks their shell and the yre not connected with the tree, but with the light and falls from the tree are ripe. So should it be. Search, toimorrow to achieve what you today at the conclusion of this day is lost. Although there are many days that are not in the sense of Eternal Love passed, it knows that the eternal love of your Holy Father in the last few days you still a life-food to give in order to be ripe, in order to glorify your Father.

What will it be a joy when I tell of your world. A messenger God gave me hand when I was in the process, the temple of my world before Altar to glorify the great spirit. Just a hint of the fullness and grace, which particular part you will take with me, and I know all the residents of my Reverence before teh world will fall down when they hear what I have experiences in your midst. One day I will thank you with everything that our world offers ! We be it into you one day – I can from the heart of my brothers and sisteers

speaking – so grateful that we unanimously want to be your successor. And so because many representatives of large worlds here to listen and incorporated, and remember:

You are taught by God ! He has taught you for His great creation which has no end. And myriad eons, and everything is alive and waiting on the lives of their love of God the Creator Ur-Spirit and, by His Children.

The hold fast: You`re not here for you, you are for us, because the whole thing, to support his holy life. You`re for us, to us redeem by the laws of eternity, even though we do not need to know and everything possess in abundance, but we keep a non-Free Being, completed by the great creations. But your life is a center of all life, everything Attainable, not by a foreign power, but by the wealth that your chest includes God as your own life. That your heart has reason to glow in gratitude to Him, from sacred, devoted, supportive love until the end of your earth life.

The spirit search into all things, even the depths of the Godhead, and on this light Rail took me a servant of his father`s great in your middle. Otherwise it would be not possible. The love needs to create pathways to the heart of the Eternal. As He for His children, created by his father to heart. Yes, you brother, through your love for Jesus so richly gifted brother, shine into the hearts of your surroundings, the Lord has chosen as a leader, a leader to infinity, if you willed embodies. He thus gives his heart His children and give them heaven and earth, so that they are all about Him love !

What all his creations are not able to interview a child of the Earth. Hearing this truth is the complete guide to life in... then see all her creations.

With a greeting from our world I am back again.“
