

MISSION OF THE ALMIGHTY FORCE

Param Sant Kirpal Singh

The **Almighty Force** carries out its mission in the world **independent of all four main religions**. Find out more about the mission and its teachings at:

www.kirpalsangat.com

Kirpal = Supreme Lord of mercy, the revealed amorphous being, representative of the science of the soul, the father who created us.

What is special about our current era is that it is still possible to receive the INITIATION and Kirpal's direct inner guidance through the mercy of the Almighty Force. When this time is over, it may come again but this will not be for another 100, 000 years. This opportunity/mercy that is now being offered will no longer be possible. This opportunity is now the supreme.

The greatest destiny of man is to be at one with absoluteness.

Quote from the Kirpal: **"Live your religion following the rules." This is a direct path. God does not need any mediators!** Children, old and sick people can maintain contact with the Kirpal through the

mercy of the Almighty." Living in a religious community forms part of the preparatory phase.

Only God can reunite the soul with Himself. Living in a religious community forms part of the preparatory phase. Human birth is a rare privilege!!

SANT MAT = the science of the soul with its Creator. It is the only path that leads to the spiritual great light and to complete freedom. **The saints preached salvation during life.**

Humanity currently opens itself to the opportunity to attain perfection in unity. If this chance is not taken, the creation process must start anew again after 2012 and this is a longer, more uneven path.

Humanity currently finds itself at the turning point of this realization –

at the turn of an era in 2012. Now is the time to find out more about the transition and to make the necessary preparations to achieve enlightenment.

Quote from Kirpal taken from "Krone des Lebens" [Crown of Life], Publisher Origo, Switzerland, page 232
".... by forgetting that, we turn him/JESUS into a **scapegoat who bore our sins, instead of following the spiritual path which he showed us, in order to evade the inner spiritual calling.** When He fulfilled his task, He withdrew from this world, and left the responsibility of further orientation to his successor. In the hope and belief that the saints from earlier times can still help us now, we start to falsely and misguidedly attach great importance to tides of thoughts and feelings.

The fact alone that a master appeared in earlier times and helped people to their origins is also definite proof that such a God is necessary in this era.

For the spiritual enlightenment process and for each true achievement, the master is absolutely essential for the spiritual development of a soul.

Here there is no limit regarding religion, beliefs, status or race.

Talk to your fellow men about the mission of the highest force. May Kirpal give all honest seekers a connection with you through His mercy.
